Frontend: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools & Platform: Git, GitHub, VS Code, Postman

PROJECTS

Smart Expiry Aware Dynamic Pricing System for E-Commerce Inventory Management

- Developed MERN-based dynamic pricing engine integrating expiry, base discount, new user, and loyalty offer with automated real-time calculations.
- Implemented intelligent offer stacking with discount caps (25% normal, 30% plus members) ensuring accurate cart-level price computation.
- Built rule-based discount system applying single-quantity user offers and validating expiry-driven pricing across Product Card, Product Details, and Cart modules.

EXPERIENCE

- Web Development Intern – Futurik Technologies July-Aug (2025)
- Web Development Workshop – NIT Trichy
